GSES HISTORY:

What was to become Gulf South Equipment Sales, LLC started at the same address on Hwy 408 (Hooper Road), by Thomas "Trigger" Carpenter in 1948, after his service in World War II. Over the decades, he ran a successful wrecker service, and automotive salvage yard, and eventually moved to tractors, implements, and some heavy equipment salvage. He took pride in hard work, good character, his Faith, his family, his community, and his business.

After nearly 40 years, Trigger handed the reigns to his son, Brent. By 1983 tractor salvage made up the lion's share of our yard. Over the next 25 years, Brent expanded the yard and opened a new tractor dealership. He brought his sons up in the family business the same way Trigger did, and still owns the business along with his wife, Bambi.

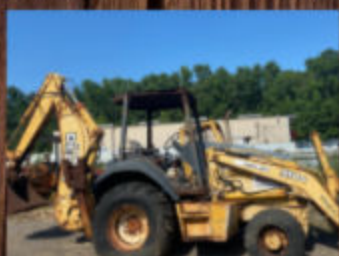

In 2008, Brent tapped his son, Cameron to manage the day-to-day operations. He decided to close the tractor dealership and focus that effort on our parts customers, expanding into even more heavy equipment salvage. 15 years later, we offer more salvage, rebuilt, and new parts than ever before, and have served tens of thousands customers on 6 continents.

Even after all the changes over the last 75 years, our commitment to our customers is the same as it was on day one. Whether you find us online, over the phone, or walk in and grab a hot cup of coffee, we're going to treat you the way we want to be treated: the right way!
